My belated thanks for the chance to meet with Claremont students in November and discuss career opportunities with the Central Intelligence Agency. I was pleased with both the reception and the insightful questions I received, and hope I can repeat this session should I be able to return in the spring.

I am forwarding, per your request, some additional copies of the agency brochures. Could you please pass one set to the ROTC Department. I have made little progress in pursuing the question of the internship program and possibilities at CIA but still intend to follow up on it. If it looks at all promising I shall be back to you early in the year.

Again, my thanks for a useful session with the students.

Sincerely,

STAT
